Phone No.: 505-348-9672

Subject: Sealed source model number correction

Summary: Mr. Mauser indicated that the correct Kr-85 sealed source model number should be NER-584 for Isotope Products Laboratories. He requested that the Th-230 sealed source be deleted from his request dated 8/14/06. I explained that NRC does not yet regulate NARM sources and therefore the Po-210 source would not be added to the license.
