Re: NRC License No: 47-23023-01
Docket No.: 03020185

Dear Mr. Lodhi:

Please be advised that all of the nuclear sources located at our Sharples, WV facility have been removed for disposal at Berthold Tech USA, Inc. located in Oak Ridge, TN 37831. Attached is an affidavit stating that Berthold is now in possession of the gauges. The Sharples facility is idle, and has been since 1999, with no plans of reopening the facility. Therefore, we would like to drop the Sharples facility from the NRC License.

During the time that the sources were in operation and/or in storage at the Sharples facility, there were no reported leaks.

If you have any questions or need additional information, please call me at (304) 357-5738.

Sincerely,

Jonathan B. Sanchez
Project Engineer
