MEMORANDUM TO: Michael E. Mayfield, Director
Division of Engineering
Office of Nuclear Reactor Regulation

FROM: Farouk Eltawila, Director /RA/
Division of Risk Assessment and Special Projects
Office of Nuclear Regulatory Research

SUBJECT: GENERIC ISSUE 201, "SMALL-BREAK LOSS-OF-COOLANT
ACCIDENT AND LOSS OF OFFSITE POWER SCENARIO"

The Office of Nuclear Regulatory Research (RES) has reviewed the information on the proposed generic issue (GI) submitted in your August 7, 2006, memorandum and has determined that the issue represents a generic concern that has not been previously identified. As a result, the proposed issue, "Small-Break Loss-of-Coolant Accident and Loss of Offsite Power Scenario," has been added to the GI list and assigned the number 201 for tracking purposes. However, copies of all background information will be needed as RES proceeds with the initial screening of the issue, in accordance with Management Directive 6.4, "Generic Issues Program." Accordingly, RES will need to consult with the NRR contact, Victor E. Hall, on an ongoing basis in the collection and explanation of all available information on the proposed issue. It is expected that the initial screening analysis will be completed by February 2007.
