Mr. Steve Cohen  
Nuclear Regulatory Commission

**RE: Introductory Meeting**

Steve:

Thanks for your time this afternoon on the phone.

As discussed in our phone conversation on August 1, 2006, Pat Lorello and I would like to meet with you and other NRC staff members to introduce ourselves and High Plains Uranium, Inc. (HPU) on or about August 22<sup>nd</sup> or 23<sup>rd</sup>. Pat and I will present general information about HPU and its' projects along with specific information included the following agenda.

- Present an overview of the Allemand Ross Project.
- Update the current status of our permitting process.
- Provide an over view of our proposed operations plan.
- Provide a short discussion on the local geology and hydrology.
- Include a discussion on our proposed meteorological monitoring requirements.

In addition, we would like for you to provide an overview of the environmental and permitting processes required for the license application.

Please let me know if either of these dates is acceptable for our meeting. My contact information is included with the e-mail message.

Thank you,

Leland Huffman  
ISL General Manager
