SUMMARY

We have reviewed your facsimile dated July 14, 2006, requesting an amendment to your byproduct materials license and find that we need additional information as follows:

1. Please refer to RIS 2005-31 at

<http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf>

A hard copy of this document should have been sent to you already. Please refer to Table 1, Attachment 2, page 19 of 19, especially and note the activity thresholds listed for those materials listed on your license.

At this time please specify the possession limits for each radionuclide listed on your license as we can no longer authorize unlimited or "as needed" possession for these radionuclides. We must now review license applications and prepare license documents in accordance with this RIS and the requested information is necessary to complete that review.

2. **In addition to the statement made in the above fax that you agree to be RSO for this license please also confirm that you understand the duties and responsibilities associated with this position.**

"NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
