Mr. Richard S. Goorevich, Director
Office of International Regimes and Agreements
National Nuclear Security Administration
U.S. Department of Energy, NA-243
1000 Independence Avenue, SW
Washington, D.C. 20585-1615

Dear Mr. Goorevich:

Enclosed is an application for a license (XSNM03465), recently received by the U.S. Nuclear Regulatory Commission, for the export of natural and low-enriched uranium (LEU) to Advanced Nuclear Fuels GMBH in Germany for fabrication into fuel and ultimate use in reactors within the EURATOM community (France, Germany, and the United Kingdom). The material will be shipped in the form of enriched UO_2 pellets, UO_2 powder, UF_6 and various other forms of powder oxides including U_3O_8 .

Assurances from EURATOM that the material will be subject to all of the terms and conditions of an agreement for cooperation, are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of Australian, Canadian and EURATOM origin. It, thus, has Australian, Canadian, and EURATOM obligations.

Sincerely,

/RA/

Stephen Dembek, Section Chief
Export Controls and International Organizations
Office of International Programs
