Dear Dr. Phillips:

We have reviewed your request dated July 7, 2006, to add Shawn Johnson, M.D. to your NRC license No. 13-01535-01 and find that we need additional information. The following information is needed for us to complete our review.

1. The preceptor form under item 6.a. shows no work experience that is required by 10 CFR 35.290(ii)(A) through (G). Please provide this information on form 313A (enclosed).
2. The preceptor form under item 6.b. shows no dates or clock hours of experience in diagnostic nuclear medicine. Please provide this information on form 313A (enclosed).
3. Item 10 on the preceptor form states that the signing preceptor is on a license in the State of Wisconsin. Since Wisconsin is an Agreement State, NRC does not have a copy or access to that license. Please either provide a copy of the Wisconsin license showing the preceptor is an authorized user for the same materials requested for Dr. Johnson or please provide a letter from either the Radiation Safety Officer or Committee Chairman of the Radiation Safety Committee stating the preceptor is an authorized user for the same materials.
4. The preceptor form under item 11.a. is not filled out. Please provide this information on form 313A (enclosed).

Please provide this information within 30 days and refer to control number 315562. If you have any questions concerning this request, please call me at 623-214-5213.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

R. J. Phillips, M.D.
