Subject: FW: Routes 195 and 202 Emergency contact verifications

Good afternoon Ms. Giantelli,

I have just received two letters from Mr. Michael Layton requesting additional information regarding the 24-hour emergency Contact information for the subject routes. The requested information is within the attached files below. My apologies.

Also, a couple of questions that I hope you can assist me with...

When a licensee (shipper) submits their letters to be a registered cask user and for QA program approval, are these considered acceptable without NRC response or should a specific approval response be expected?. Also, does this constitute notification of the intent to ship or is something separate needed there as well?

Thank you very much. Have a great day!!

Best regards,
Jim Wade
