Dear Mr. Bradeson,

I reviewed your 8/16/2006 submittal. You stated that you no longer possess a gauge with americium. Can you please fax me the last leak test of the gauge that had the Am-241? It should show that there is no radioactive contamination and I can place that on the record. Then you should have no further questions about Am-241 in the future.

My fax number is: 610.337.5269

Please write "Control # 139257" on the fax.

Thank you very much.
