

SAFEGUARDS INFORMATION

August 31, 2006

Mr. Ross T. Ridenoure
Vice President and CNO
Omaha Public Power District
Fort Calhoun Station, FC-2-4 ADM
P.O. Box 550
Fort Calhoun, NE 68023-0550

SUBJECT: FORT CALHOUN STATION - SECURITY INSPECTION 05000285/2006201

Dear Mr. Ridenoure:

On July 12, 2006, the US Nuclear Regulatory Commission (NRC) completed a security baseline inspection at the Fort Calhoun Station. The inspection covered one or more of the key attributes of the security cornerstone of the NRC's Reactor Oversight Process. The enclosed inspection report documents the inspection results, which were discussed on July 12, 2006, with Ms. Mary Tesar, Division Manager, Nuclear Support Services and other members of your staff.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel. No findings of significance were identified within the scope of this inspection. However, a requirement for additional inspection activities was identified and a Special Inspection (SIT) was conducted by Region IV inspectors from April 18 - July 5, 2006. The results of the SIT are documented in Inspection Report 05000285/2006015 which was issued on July 24, 2006.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system, ADAMS. ADAMS is accessible from the NRC Website at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). However, because of the security-related items contained in the enclosure, and in accordance with 10 CFR 2.390, a copy of this letter's enclosure will not be available for public inspection.

Enclosure contains **Safeguards Information**. Upon removal, this letter is decontrolled.
