- Main Office Inspection
- Field Office \_\_\_\_\_
- Temporary Job Site \_\_\_\_\_

Next Inspection Date: ~~5/2011~~ 8/2011

*KST*

**PROGRAM SCOPE**

The licensee is a consultant organization that collects client samples for analysis. Licensee is authorized to collect samples from any byproduct material. Licensee is also licensed to install and remove gauges for customers.

**Performance Observations**

Licensee demonstrated how material is stored and the locked safe used to house analytical samples. Sources are stored and accounted for in an inventory system. Interviews of licensee personnel indicated an adequate level of knowledge of radiation safety. Records of shipping and receipt of material were reviewed. No discrepancies were noted.

Licensee is located in an agreement state, so that the inspection was limited to a records review and personnel interviews.
