Please find enclosed a completed exportation license application form. This license is needed in order to relocate a Gamma irradiator (Gamma cell 1000) currently located in our Seattle Facility to the GSK Biologicals Facility located in Laval, Quebec, Canada. Since we are closing down this facility, the gamma irradiator must be moved out very shortly. The apparatus will be prepared for the moving by its original manufacturer and shipped to Laval and re-installed also be the manufacturer. We would greatly appreciate a prompt processing of our application.

Best Regards
