Lisle, IL 60532-4352

Dear Mr. McCann:

Subject: Update on retirement of several BCLDP Environmental Procedures.

Mike, per your request and for your informational purposes I am writing this letter to inform the NRC of the retirement of the following environmental procedures in the BCLDP Program:

- EM-SP-003 "Collection of Environmental Soil Samples"
- EM-SP-004 "Collection of Perennial Vegetation Samples-Grass or Other Ground Cover, Trees, and Shrubbery"
- EM-SP-005 "Collection of Annual Crop Samples"

These procedures were retired effective September 1, 2006 based on the fact that there is no longer any radiological source term on the site associated property to monitor within the parameters of these procedures.

The BCLDP QA procedure process was applied to the retirement of these procedures including the required review prescribed in HP-AP-36.0 "Control of Revisions to Radiation Protection Program Documents."

If you have any questions or comments please do not hesitate to call me at 614-424-4098.

Sincerely,

Joe Jacobsen
BCLDP Radiation Safety Officer
