NUCLEAR REGULATORY COMMISSION**

REGION III  
2443 WARRENVILLE ROAD, SUITE 210  
LISLE, ILLINOIS 60532-4352

**AUG 29 2006**

Jan Greiwe, MBA  
Vice President/Chief Operating Officer  
Advanced Medical Testing Systems, Inc.  
235 Dunn Road  
Florissant, MO 63031

Dear Ms. Greiwe:

Enclosed is Amendment No. 09 to your NRC Material License No. 24-25953-01 in accordance with your request dated August 4, 2006. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note that in accordance with our telephone conversation on August 24, 2006, Dr. Sexton is authorized for 10 CFR 35.200 material. The information provided in your amendment request showed that Dr. Sexton is authorized on Forest Park Hospital's license for 35.200 material but not 35.100 material. If you wish to list Dr. Sexton for 35.100 material in the future, please provide all the necessary information required in 10 CFR 35.190.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

J. Greiwe

2

Sincerely,

  
James R. Mullauer, M.H.S.  
Health Physicist  
Materials Licensing Branch
