Dear Dr. Carr:

Enclosed is Amendment No.18 amending your NRC Material License No. 13-16680-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, we have not added Dr. Scott M. Simpson as an authorized user at this time because the request is not clear and the documentation of his training and experience is incomplete. If you wish to pursue this matter, please submit the additional information as described in the enclosed memo. You may resubmit your request as additional information to Control 315494.

Also note, we have added license condition 14, that limits your possession of byproduct materials to quantities that do not require decommissioning financial assurance.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script that reads "William P. Reichhold".
