SUMMARY: Hub had called the alleger in the morning (~8:30 a.m.) but alleger did not answer cell @ that time. Alleger later retrieved Hub's # from the "missed call" list on her cell and called back at ~10:30 a.m. Hub requested D. Vito and G. Meyer to sit in and listen to his side of the conversation (alleger was not placed on speaker phone). Hub informed alleger that Vito and Meyer were in his office during the call.

Hub informed alleger that we were giving her concerns the highest priority, and following the allegation on an enhanced, expedited basis (as evidenced by his call to her - not a normal action). Hub informed alleger that NRC was dedicating a lot of resources to the review of the SCWE matter. Hub reiterated that we have been giving the is facility a lot of attention, for a period of time even before the alleger contacted us. Hub acknowledged the alleger's e-mail of 9/30.03 which requested that we consider shutting down the plant based on the evidence she had provide thus far. Hub reiterated the level of attention that was being applied to plant oversight. Hub informed alleger that she would soon be receiving an acknowledgment letter describing our understanding of her concerns in great detail. Hub emphasized to her that we had acknowledged her concern about referring this matter directly to PSEG for review, and that we had chosen not to take that action.
