Subject: a couple more files

Eileen,

Thanks for your time and patience today.

I found the attached files which tell about the long term project I was going to work on with the management team, [REDACTED] This would have continued through 2004.

There is also a file called "New Employee Views". This is a summary of notes from a focus group I conducted in 2001 at [REDACTED] request with people who had been at the site only a few months. The comments are very telling. They are consistent with what I have already shared with you and consistent with the Employee Concerns SCWE survey results.

The date of the file creation was 7/22/01. The meeting was around that time [REDACTED] who I mentioned to you previously, set the meeting up. I can supply names of a few people who attended.

I'll be in my car for four hours this afternoon. Call if you have any questions [REDACTED]

Blessings,

Kymn
