Subject: Decisions to be made for RI-2003-A-0110 ARB @ 2:30 today (Salem SCWE/H&I)

Glenn/Scott:

Below are what I feel represent the decisions that need to be made @ the ARB today. Please review and modify as you see fit.

1. Determine approach/schedule for the SCWE review.
2. Re: technical events/conditions noted in Concern 1 (SCWE):
 - tech staff needs to do a review of each item to determine if additional tech. review is necessary
 - if so, discuss review approach
 - if not, provide summary discussion to SAC as to why existing reviews were sufficient
 - it is inherent that the SCWE aspects of these issues will be assessed within the context of the SCWE concern
