Subject: Re: Salem SCWE Follow up

Scott,

Please understand that Rick is out today, and will be out most of next week at the Enforcement counterpart meeting. He will be able to help, but in more of a support function than an driving function. I was thinking similarly that he could help with the review of the Winston and Stawn information and the ECP survey results that Eileen acquired recently. I also believe that he can help in setting up some sort of matrix for the [REDACTED] i.e., a table that would show information about and a current assessment of each item, and that could be updated as additional review/insight is obtained. Perhaps we can sit down with him early next week, before he leaves for the Enforcement meeting, to talk about his support. *TR*

I will have Sharon ckeck people's schedules on Monday and determine which day (Thursday or Friday) will be most appropriate for the next "status" ARB.

>>> Scott Barber 10/30/03 07:23PM >>>

According to Brian Holian, Dan Holody has offered Rick Urban as a staff resource to help address the Salem SCWE allegation. Eileen Neff has a significant amount of PSEG material to review and I would propose that Rick review that material and then document a concise summary of any issues he identifies relative to this allegation or any new technical issues that may not have been addressed by PSEG.

I also received DRS approval to have Don Jackson review the TARP Reports, NRB minutes, and other miscellaneous that was provided by the alleger. He has the files the necessary files to review.

Dave - I would like to schedule the first general status ARB for next Thursday or Friday. Please pick a day and time that best suits everyone's schedule. This is consistent with a request made by Randy on this topic.

All - I would ask all involved personnel to come prepared to address our progress in addressing item assigned by the initial ARBs. I plan to come prepared to address our current progress in reviewing the [REDACTED] and to provide a general summary of the interviews with Eileen and Jeff's assistance. *TR*
