Subject: <small>(NOTE: This will be used as the Documents Title in ADAMS)</small>	Additional information for licensure.	
Summary:	<p>11:45 I spoke with Mr. Arbuckle and asked him if the licensee intended to perform calibrations of survey instruments as a service to clients. Mr. Arbuckle indicated that the licensee did. I also noted to Mr. Arbuckle that the license requested authorization for research and development. Such an authorization would require an additional fee. Mr. Arbuckle stated that he would have Mr. Landfried get back in touch with me about the issue of research and development since he was out of the office.</p> <p>13:30 Mr. Landfried called back. He stated that the company will be doing research and development in the construction of new radiation detection equipment. However, the use of the radioactive source would only be to calibrate the licensee's instruments. The use of the term "research and development" on the license application misrepresented what the licensee intended to do with the licensed material. I thanked Mr. Landfried for the information and stated that no additional fees would be requested.</p>
