Information Needed for Transfer of Control

License No. 37-30535-01

Definitions:

Docket No. 030-35224

**Control:** Control of a license is in the hands of the person or persons who are empowered to decide when and how that license will be used. That control is to be found in the person or persons who, because of ownership or authority explicitly delegated by the owners, possess the power to determine corporate policy and thus the direction of the activities under the license.

**Transferee:** A transferee is an entity that proposes to purchase or otherwise gain control of an NRC-licensed operation.

**Transferor:** A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Licensees must provide full information and obtain NRC's *prior written consent* before transferring control of the license. Provide the following information concerning changes of control by the applicant (transferor and/or transferee, as appropriate). If any items are not applicable, so state.

1. Provide a complete description of the transaction (transfer of stocks or assets, or merger). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact who NRC may contact if more information is needed.
2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel.
3. Describe any changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.
4. Describe the status of the surveillance program (surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.
5. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity.
6. Confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program.

RE: Attachment to Appendix F: Information Needed for Transfer of Control  
License No. 37-30535-01  
Docket No. 030-35224

Mr. Rolph:

The following provides information concerning license change of control as listed on faxable form Appendix F:

1.) CME Management LLC is a new entity established in order to perform management responsibilities for but not limited to Civil Mining Environmental Engineering Inc. CME Management LLC purchased the assets of Civil Mining Environmental Engineering Inc. including the nuclear density gauge. In addition, the employees of Civil Mining Environmental Engineering, Inc. are now employed by CME Management LLC and with regard to the nuclear density gauge, no changes of employee function or responsibility has occurred.

Contact for CME Management LLC: Andrea Ray  
Controller

2.) There have not been changes in personnel or duties that relate to the licensed program.

3.) There have not been any changes to the location, facilities, equipment or procedures that relate to the licensed program.

4.) The surveillance program (surveys, wipe tests, quality control) has and shall follow the same protocol in accordance with NRC regulations.

5.) The facility did not change.

6.) The transferee will abide by all constraints, conditions, requirements and commitments of the transferor.
