Subject: Fw: North Anna ESP Site: Revision to Wetlands Delineation

Jack, Lance -

Attached is a revised wetlands delineation for the North Anna ESP Site that we provided to the US ACE today. An intended confirmation letter from the ACE is expected by September 12, 2006 and I may be able to forward that to you after I receive it.

Please let me know if you have any questions or concerns related to this transmittal.

Thanks.

RE: North Anna Power Station: Follow-up to Site Visit

Dear Ms. Bronson:

Enclosed, please find the following revisions to our May 24, 2006 request for confirmation of the wetlands delineation of the properties that could be impacted by new construction at our North Anna Power Station:

1. Revised wetland delineation maps showing the locations of the flagged and numbered wetland delineation boundaries.
2. A revised topographic map onto which the delineation survey information has been superimposed.
3. A revised table describing the linear footage of delineated streams (the acreage of wetlands delineated is shown on the Burgess and Niple survey plats).

We are submitting these revisions in light of our discussions with you during your August 1, 2006 visit to the North Anna Power Station.

Thank you for your efforts to date on this project. Please feel free to contact Ken Roller at 804-273-3494 or Tony Banks at 804-273-2179 with any questions or concerns you may have with this transmittal.

Sincerely,

Cathy G. Taylor for

Pamela F. Faggert
