RULEMAKINGS AND
ADJUDICATIONS STAFF

Attention: Rulemaking and Adjudications Staff

Subject: RIN 3150-AH84 Proposed Rule: 10 CFR Parts 20, 30, 31, 32, 33, 35, 50, 61, 62, 72, 110, 150, 170, and 171 "Requirements for Expanded Definition of Byproduct Material"

Dear Madam Secretary:

The Tennessee Division of Radiological Health supports the Organization of Agreement States (OAS) position and comments as communicated to you in an August 23, 2006, letter signed by Barbara L. Hamrick, Chair, OAS.

We have regulated the material to be captured under the expanded definition of byproduct material, as "radioactive material", for more than forty years, effectively protecting the public health and safety through the same regulatory practices employed in the conduct of our Agreement State program. Mandated changes to definitions, as discussed in the OAS position, would require unnecessary statutory and rulemaking changes potentially having significant impact on our program.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Lawrence E. Nanney".

Lawrence E. Nanney
Director
