Att: Mr Steven Courtemanche

Dear Sir,

On Saturday August 27, 2005 a Portable Gauge was stolen out of the bed of a pickup truck belonging to Francis Perez an employee of Materials Testing Inc. 180 Mill rd. Edison, NJ 08817. The vehicle was parked outside of his residence, 50 No 6th street Newark, NJ . The gauge a Troxler 3411B Serial # 7989 was secured to the bed of the truck with two chains and the gauge carrying case was padlocked. It is believed that the gauge was stolen between the hours of 1:00 and 8:00am Saturday morning.

The technician had finished his assignment late Friday evening and was then unable to bring the gauge back to the Edison, NJ Facility for storage. Also the technician was scheduled for the same project on Monday morning (August 29, 2005).

The local police were notified as well as the Nuclear Regulatory Commission's Jim Schmitt and the FBI agent Bob Sicia (See attached report).

A follow up press release was placed in the Star Ledger newspaper as instructed by the NRC rep Mr. Schmitt and also many pawn shops were contacted by myself and Mr Thomas Valenzano of MTI.

To date the gauge has not been recovered nor have any new leads arisen.

Mr. Perez has since tried to bring whatever gauge he is issued back to the laboratory as often as possible.

Should you have any additional questions please do not hesitate to call me.

Sincerely,

Frank Pennisi
Regional Vice President
RSO

until a match is found for Shakil, Bekele said the boy will continue to receive intensive treatment to keep the disease in remission.

Shakil, a seventh-grade student at Peshine Avenue School, understands the seriousness of his illness and has braced himself to deal with it.

of the hospital four times for two hours each trip. On one of the outings, he was able to go fishing.

His father took him to nearby Weequahic Park, where Shakil said he bagged 25 fish.

"So how did it feel?"

"Good."

"Kind of like old times."

"Yep."

Barry Carter covers Newark. He may be reached at (973) 392-1827.

An anonymous e-mail to the state Department of Education office in Trenton suggested that pupils were given extra help and time while taking the state tests. Teachers also were said to be directed to erase answers and coach pupils.

While the most severe charges

were not substantiated, there were some irregularities found.

The Washington Academy was among 23 schools around the state to receive the Governor's School of Excellence Award last year. It is one of East Orange's best-performing elementary schools.

Police seek help on bank robbery

SOUTH ORANGE: Police are asking for the public's help in tracking down a suspect who robbed a Valley National Bank at 110 Irvington Ave. almost three weeks ago.

Authorities said the man walked into the bank at 5:30 p.m. Aug. 11 and lingered around the lobby area. He then approached a teller's window and slipped the teller a written note, demanding money. The teller handed over an unknown amount of money, and the man ran from the bank.

He was last spotted running down Irvington Avenue.

Police said the man was wearing a long black T-shirt, blue jeans and thick, dark-framed glasses. He is a black male, 20 to 30 years old and at least 6 feet tall.

Anyone with information is asked to call detective Steven A. Davenport at (973) 763-3000, ext. 7795.

Firm asks return of radioactive device

NEWARK: Officials with an Edison company are seeking the return of a measuring device containing radioactive material that was stolen Saturday in Newark. The piece of equipment could be dangerous if it is broken apart and humans are exposed to its radioactive element.

The device, called a nuclear density gauge, was stolen from the bed of a pickup truck in the North Ward during a break-in.

The gauge, which is used primarily to measure the density of soil and asphalt, was stored in a yellow plastic case and has a metal handle that extends up to 18 inches. Troxler, the manufacturer's name, appears on the case. The model number of the gauge is 3411-B and its serial number is 7989.

Anyone with information concerning the whereabouts of the gauge is asked to call Materials Testing Inc. at 1-800-684-1367. Ask

to speak with Frank. All calls will be kept confidential, the company said. A reward has been offered for the safe return of the device.

Police warn public on bogus fund-raising

NEWARK: Newark police have recently received a number of inquiries from residents and business owners who have been solicited by organizations using "Newark Police" in their organization's name, the latest being the Newark Police Crime Scene Investigation Association.

These requests, allegedly on behalf of the department, have been made through mailings, phone campaigns as well as in person, police said.

These organizations have no affiliation with the Newark Police Department and the department is not soliciting any money from the public, nor has the department hired anyone to lobby on the department's behalf.

Anyone receiving mailings or in-person request for money donations and have questions as to their authenticity should contact the Newark Police Department at (973) 733-6309 for verification.

Newark man gets jail in robbery spree

SOMERVILLE: A Newark man was sentenced to 10 years in state prison yesterday for three crimes targeting senior citizen women in Somerset County, including two robberies where he choked and shoved his victims.

Michael Carnegie, 44, must serve at least 8½ years before he is eligible for parole under the sentence levied by Superior Court Judge Edward Coleman in Flemington.

Carnegie pleaded guilty in March to two counts of second-degree robbery, two counts of third-degree forgery and a third-degree theft charge. He was remanded back to the Somerset County Jail after sentencing.

Carnegie approached a 61-year-old woman in the parking lot of the Franklin Town Center on Route 27 in Franklin Township in October and asked for directions. When she agreed to help, Carnegie grabbed her by the throat and demanded money. He stole \$30 from her purse and fled.

Witnesses to a November robbery provided police a description of Carnegie's car and he was arrested within 30 minutes.
