Subject: Resubmittal of request to amend the Duquesne University Materials License No.
37-02451-04 03000963

Dear Mr. Courtemanche:

The purpose of this letter is the resubmittal to amend the list of authorized users for licensed material.

Update: Vicki Davis, Ph.D

It is requested that Vicki Davis be authorized to use Iodine 125 in addition to those isotopes she is already authorized to use. Dr. Davis has worked with Iodine 125 at several establishments during her work as a graduate student, technician, and post-doctoral fellow. She will be working with only the non-volatile compounds. Dr. Davis would then be authorized to use licensed material in Items 6.A through 6.E. Attached you will find the requested information from your August 8, 2006 letter.

Removal of Authorized User: John S. Doctor, Ph.D.

In our letter dated June 1, 2006, we asked to have Dr. Doctor removed from our license; he is no longer with Duquesne University. Please remove his name from our license.

If you have any questions please call me at 412-396-6382 or E-Mail volpe@duq.edu

Sincerely

John J. Volpe, RSO

John J. Volpe
Duquesne University
Radiation Safety Officer
B-7 Mellon Hall

September 1, 2006

Dear Mr. Volpe;

Vicki Davis was an Authorized User of Radioactive Materials on our Radioactive Materials License at Cedars-Sinai Medical Center. She was authorized to perform experimental activities using Iodine-125 in her research. The Radiation Use program was authorized to use Iodine in amounts less than 5 millicuries during 2002 - 2005.

Cedars-Sinai Medical Center holds a broad scope radioactive materials license through the State of California, No. 0404-19; as such our Radiation Safety Committee approved her as an Authorized User.

I can be reached at 310 423-4336 if you have any questions.

Sincerely,

Donna L. Earley, MS
Radiation Safety Officer

This is to acknowledge the receipt of your letter/application dated

9/13/2006, and to inform you that the initial processing which includes an administrative review has been performed.

Amendment 37-02451-04
There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.

Please provide to this office within 30 days of your receipt of this card
