

September 19, 2006

Ms. Mary Lampert
Massachusetts Citizens for Safe Energy
Duxbury Nuclear Advisory Committee
148 Washington Street
Duxbury, MA 02332

Dear Ms. Lampert:

I am responding on behalf of the United States Nuclear Regulatory Commission (NRC) regarding your letter to Commissioner Lyons, with the enclosed comments titled, "Review Emergency Preparedness Regulations and Guidance for Commercial Nuclear Power Plants" dated August 28, 2006.

I would like to assure you that the NRC staff is cognizant of, and is considering, the issues described in your letter to Commissioner Lyons. During the May 19, 2006, follow-up meeting held with the Non-Governmental Organizations (NGOs), I informed you that the staff was interested in an information exchange such that we could provide the Commission the views of the NGOs. The staff will be providing the Commission a paper that will summarize the results of its review of emergency preparedness (EP) regulations and guidance by the end of September 2006. In the paper to the Commission, the staff will provide a summary of stakeholder input received as a result of public meetings with stakeholders regarding the review of EP regulations and guidance. The staff plans to re-engage all stakeholders after the Commission provides direction to the staff on these issues.

Thank you for your continued dialogue with us.

Sincerely,

/RA/

Eric J. Leeds, Director
Division of Preparedness and Response
Office of Nuclear Security and Incident Response
