SUBJECT:

Route Deviation due to Construction

*Gloria*  
Dear Mrs. Bennington,

To confirm our telephone conversation of June 26, we are required by the State of Virginia to deviate from the approved route for the referenced shipment. Due to construction on the New River Bridge on route US 460/US219, weight limits are restricted to 80,000 lb. and our load is 100,000 lb. Since we are not allowed to transit tunnels with hazardous cargo, we must start the deviation from the approved route in Charleston, WV. The required routing for the State of Virginia is:

I-77 South to I-64 East to I-81 South to Route 52 South to Route 60 West to I-77 South

Please confirm that the deviation is allowed for this shipment. Please also let us know if you require additional information in this matter.

Regards,

*Franchone*
