RE: Radioactive materials license number 45-30953-01

03036662

Request for amendment

Dear Sir or Madam:

Please amend the above referenced license in the following sections:

Section 12.B :

ADD: Authorized User

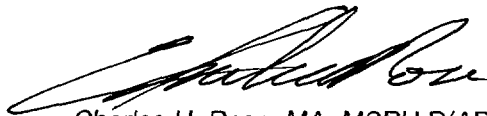

Authorized Use

Mariano D. Chutuape, M.D

35.200

I have enclosed a copy of Preceptorship letter and certificates of coursework completion to document the training and experience of Dr. Chutuape, Should you need any further assistance, please contact me at 303-541-0044.

Sincerely,

Charles H. Rose, MA MSPH D(ABSNM)
Radiation Safety Officer
Woodbridge Cardiovascular Center, PLC

NUCLEAR MEDICAL EDUCATION PROGRAM

Affidavit of Academic Completion and Competency

This document is to attest that

MARIANO D. CHUTUAPE, M.D.

has successfully completed the didactic program

MEDICAL RADIATION INSTRUMENTATION

and has provided evidence of attendance in this program and evidence of achieving the objectives of this program through examination.

This program provides the following levels of accomplishment:

- 50 Didactic Instructional Hours (DIH)
(In compliance with 10CFR35)
- 5 Continuing Education Units (CEU)
- 50 Continuing Medical Education (CME)
- 50 Technical/Professional Credit specified by the
American Pharmaceutical Association and the
American Association of Health Physicists*

*additional documentation will be provided to Regulatory Agencies upon participant request

Validated by the American Council on Education, recognized by the American Association for Collegiate Registrars, Council on Post-Secondary Education.

This is to attest that Mariann D. Chutwape has presented evidence that he/she has satisfactorily completed the following training and experience as stipulated in §35.290. The doctor has:

1. Completed 200 hours of classroom and laboratory training in basic radionuclide handling techniques applicable to the medical use of unsealed byproduct material for imaging and localization studies that included:
 - a) Radiation Physics and Instrumentation.
 - b) Radiation Protection.
 - c) Mathematics pertaining to the use and measurement of radioactivity.
 - d) Chemistry of byproduct material for medical use.
 - e) Radiation Biology.

2. Completed 70 hours of work experience, under the supervision of an authorized user who meets the requirement of §35.290 or, if an authorized user trained before 24 October 2005, §35.920 or equivalent Agreement State requirements. This work experience included, but was not limited to:
 - (a) Ordering, receiving, and unpacking radioactive materials safely, and performing the related radiation surveys.
 - (b) Performing quality control procedures on instruments used to determine the activity of dosages and performing checks for proper operation of survey meters.
 - (c) Calculating, measuring, and safely preparing patient or human research subject dosages.
 - (d) Using administrative controls to prevent a medical event involving the use of unsealed byproduct material.
 - (e) Using procedures to safely contain spilled radioactive material and using proper decontamination procedures.
 - (f) Administering dosages of radioactive drugs to patients or human research subjects.
 - (g) Eluting generator systems appropriate for preparation of radioactive drugs for imaging and localization studies, measuring and testing the eluate for radionuclidic purity, and processing the eluate with reagent kits to prepare labeled radioactive drugs.

The classroom and laboratory training and work experience should provide a level of knowledge to permit the doctor to function, with regards to these areas, as an authorized user for diagnostic imaging and localization studies.
