September 5, 2006

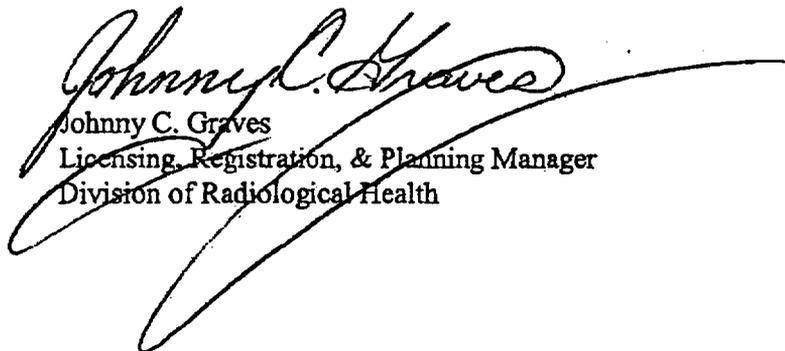

Mr. Stephen Dembek, Section Chief
Export Controls and International Organizations
Office of International Programs
United States Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Dear Mr. Dembek:

This letter acknowledges your letter of August 23, 2006, with attachments, concerning the import and export of Canadian radioactive waste to Duratek facilities in Oak Ridge, Tennessee. We believe the activities described in the applications submitted with your letter accurately reflect the authorizations granted to Duratek in Tennessee Radioactive Material Licenses issued to Duratek for the decontamination, processing, and recycling of materials, including liquids, contaminated with radioactive material in accordance with the statements, representations, and procedures referenced in those licenses.

Therefore, we have no objection to your issuance of the appropriate U.S. Nuclear Regulatory Commission import and export licenses to Duratek.

Sincerely,

Johnny C. Graves
Licensing, Registration, & Planning Manager
Division of Radiological Health
