

September 19, 2006

Mr. Scott M. Cullen
Grace Policy Institute
28 W. 44th Street, Suite 1504
New York, NY 10036

IN RESPONSE REFER
TO FOIA/PA-2006-009A
(FOIA/PA-2006-0175)

Dear Mr. Cullen:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your undated letter to the Freedom of Information Act/Privacy Act (FOIA/PA) Officer. You appealed the agency's June 23, 2006, decision regarding your April 11, 2006, FOIA request (FOIA/PA-2006-0175). Specifically, this response addresses the records identified in Appendix C and Appendix D/1 thru D/21. Ms. Vietti-Cook on behalf of NRC separately addressed record D/22 in a letter dated August 8, 2006.

Acting on your appeal, I have reviewed the record in this case and have determined that some additional information in two records may be made available to you. Therefore, I have partially granted and partially denied your appeal. The released portions of records C/2 and D/9 are enclosed.

The records being withheld are mostly draft outlines of a working paper and draft SECY papers that were prepared to shape the Commission's deliberations. Release of this information would inhibit the staff's candor in formulating policy positions for Commission decision making. Since these records relate to the Commission's evaluation of the power reactor ownership structures and these papers were not finalized, they are being withheld from public disclosure pursuant to Exemption 5 (5 U.S.C. 552(b)(5)) and 10 CFR 9.17(a)(5) of the Commission's regulations.

This is NRC's final decision. As set forth in the FOIA (5 U.S.C. 552(a)(4)(B)), judicial review of this decision is available in a district court of the United States in the district in which you reside or have your principal place of business. Judicial review can also be had in the district in which the agency's records are situated or in the District of Columbia.

Sincerely,

/RA/

William F. Kane
Deputy Executive Director for Reactor
and Preparedness Programs
Office of the Executive Director for Operations

Enclosures: As stated
