Duncan White, CHP
Regional State Agreements Officer
United States Nuclear Regulatory Commission, Region I
475 Allendale Road
King of Prussia, Pennsylvania 19406-1415

Dear Mr. White:

Please find enclosed the completed "Integrated Materials Performance Evaluation Program (IMPEP) Questionnaire" provided to me in the letter dated May 8, 2006. The Questionnaire and appropriate attachments have been completed with the requested data through July 31, 2006. If additional information is requested or necessary, please contact Kim Wiebeck, Program Coordinator or me.

The exit briefing for the IMPEP review has been tentatively scheduled for September 1, 2006 at 9:30 a.m. with Paul Halverson, DrPh, MHSA, Director of the Division of Health with the Arkansas Department of Health and Human Services. Other Division Managers and Directors have been invited to this exit briefing.

We are looking forward to working with the IMPEP team in the review and evaluation of the Arkansas Radioactive Materials Program. I would advise you to recommend to your team to dress comfortably in cool and casual clothing, as the temperatures in Arkansas have been over 100 degrees.

If you have any questions regarding lodging or logistics in the Little Rock area, please contact me at 501-661-2173.

Sincerely,

Jared W. Thompson, Program Manager
Radioactive Materials Program

cc: Kim Wiebeck, Program Coordinator
Radioactive Materials Program

Bernard Bevill, Section Chief
Radiation Control Section
