SUBJECT: CHANGE IN NRC STAFF PROJECT MANAGEMENT FOR MILLSTONE
POWER STATION, UNIT 1

Dear Mr. Price:

On October 1, 2006, the U.S. Nuclear Regulatory Commission (NRC) staff project management for your facility will transfer from the Office of Nuclear Reactor Regulation, Division of Policy and Rulemaking, to the Office of Federal and State Materials and Environmental Management Programs (FSME), Division of Waste Management and Environmental Protection (DWMEP). Until an October 1, 2006, reorganization DWMEP is part of the Office of Nuclear Material Safety and Safeguards. This change is being made to consolidate the NRC decommissioning activities in one central organization. This change in regulatory oversight will allow licensees to capitalize on NMSS experience and expertise in the evaluation of any future dismantlement, decontamination, and license termination activities.

John B. Hickman has been assigned as your Project Manager in FSME/DWMEP. He can be reached at (301) 415-3017. Future official correspondence should be directed to the Document Control Desk with a copy sent directly to:

John B. Hickman, Project Manager
U.S. Nuclear Regulatory Commission
Mail Stop T-7-E18
Washington, DC 20555

If you have any questions or comments regarding this change in project management oversight, please call me at (301) 415-1002.

Sincerely,

/RA/

Joseph A. Golla, Project Manager
Generic Communication & Power Uprate Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation
