

MEETING SUMMARY

Date of Meeting: September 21, 2006

Organization: International Isotopes, Inc.

Participants: NRC International Isotopes
Tim Harris John J. Miller
John Jankovich
Jonathan Rivera
Nima Ashkeboussi

This note summarizes the public meeting held between the NRC and International Isotopes, Inc. at the U.S. Nuclear Regulatory Commission (NRC) Headquarters on September 21, 2006. The following issues were discussed:

1. International Isotopes presented a summary of the request to triple encapsulate sealed sources that are double encapsulated and have reached the end of their useful life.
2. International Isotopes responded to a variety of questions from the NRC related to the double encapsulated sources to be used, the construction of the triple encapsulated sources, prototype testing, and quality assurance.
3. International Isotopes agreed to respond to additional questions in writing. The NRC will provide International Isotopes a written list of questions.
