MEMORANDUM TO: R. Caniano, Acting Director, Division of Reactor Safety

FROM: J. Heller, Senior Allegation Coordinator

SUBJECT: OI REPORT OF INTERVIEW KEWAUNEE NUCLEAR POWER PLANT:
(OI CASE NO. 3-2002-020) (AMS NO. RIII-02-A-0114)

The Office of Investigations has forwarded the subject Report of Interview to Region III. A copy is enclosed for evaluation by yours Security staff.

Your review should determine:

- if there are any new safety concerns identified, and
- whether the OI investigation priority should be changed or an OI investigation is no longer warranted.

If there are any new concerns, please identify the regulatory basis for the concerns. Also make a recommendation if the concerns should be added to the existing AMS file, or if a new allegation file should be opened and a new ARB should be held.

Please document the results of your review in a memo to me within 14 days of the date of this memorandum, and provide a copy of the results of your review to Mr. Rich Paul, Director, OI Region III Field Office.

The Report of Interview must be kept in a secure cabinet and access granted on a need to know basis. At the time all of the actions are completed by your Division, the report must be returned to the Enforcement and Investigation Coordination Staff for disposition. No portions of the Report of Interview can be reproduced or released without the specific approval of the Director, Office of Investigations.
