Action

- Please review the attached document to identify any safety concerns and/or enforceable items. Please also provide a response to any concerns which are outside of the NRC's regulatory jurisdiction so that we can respond completely to the CI's issues. Please provide the concerns and your evaluation review plan on the ARB briefing sheet which is electronically available at R:\allegations. **The results of your review are due to OAC3 in a memo by July 6, 2005.** I selected this date in order to meet the metric to conduct the initial ARB within 30 days of the allegation receipt date.

This briefing sheet should contain any background information related to the concern, the justification for our proposed actions, as necessary, and the regulatory basis for the each item. The memo should be provided in electronic form to OAC3.

Section of 3 of Regional Procedure 8.8, "Management of Allegations," addresses the initial review of Allegations.

- If you determine that an Office of Investigations (OI) investigation is warranted, please coordinate with OI and Regional Counsel, as necessary. If the issue involves willfulness, please provide a draft Notice of Violation. If the issue involves discrimination for raising safety issues, please provide the information requested in Exhibit 3 to Management Directive 8.8, which is electronically available at r:\allegations.
- For issues you recommend referring to the licensee, please provide the questions you request that the licensee respond to in addressing the issue.
- If you determine that additional information is needed regarding the concerns, please contact the CI for this information prior to the Allegation Review Board. Please attach a copy of your record of conversation with the CI.
