1    CLS Date 11/03/2005    OI NUMBER    No    Substantiated N    Age 136

Point Beach 1

You believe that you were the subject of discrimination (site access denied) for reporting that you inadvertently dropped a wrench from scaffolding that you were constructing. You stated that the scaffolding was being constructed near the water box on the 26-foot elevation of the turbine building and the wrench fell from the scaffold, through the 26-foot floor opening and landed next to the water box that is located on the 8-foot elevation.

*Basis for Closure*

From 11/03/05 Closure Ltr:

On August 19, 2005, you filed a complaint of discrimination under Section 211 of the Energy Reorganization Act with the U.S. Department of Labor (DOL). In a letter to the NRC dated October 21, 2005, DOL informed us that it has closed the investigation of your case as the parties have settled the matter. Because a settlement agreement was executed, we are closing your concern. No unresolved technical issues or violations of NRC requirements were identified.
