

October 18, 2006

MEMORANDUM TO: Eric W. Weiss, Chief
Licensing and Regulatory Improvements Branch
Division of Preparedness and Response
Office of Nuclear Security and Incident Response

FROM: Ronald V. Schmitt, EP Specialist */RA/*
Division of Preparedness and Response
Office of Nuclear Security and Incident Response

SUBJECT: SUMMARY OF PUBLIC MEETING HELD ON
SEPTEMBER 7, 2006, "EMERGENCY ACTION LEVEL FAQ'S"

The purpose of this public meeting with NEI and licensees was to discuss new emergency action level frequently asked questions (EAL FAQ) as well as discuss the progress of EAL FAQs previously discussed. The NRC staff explained the purpose of the EAL FAQ process so that all parties were aware of the expectations of this process.

In the opening remarks, the staff emphasized the importance of the EAL FAQ process and pointed out that industry attention should be given to ensuring that new reactor license applications, that utilize new reactor designs, have a comprehensive set of EALs.

NRC staff discussed the draft technical positions for the EAL FAQ's presently under review. NRC staff emphasized that the technical position for these EAL FAQs were not finalized but were being discussed to facilitate input from NEI and the EAL FAQ Working Group to ensure that the issues are well understood.

NEI/industry representatives presented their response to the 2 EAL FAQs initiated by NRC staff related to the anticipated transient without scram EALs and EALs for advanced LWR designs.

The NRC meeting announcement and agenda can be found in ADAMS Accession Number(s):
Meeting Notice - ML62200559
Agenda - ML062200555

Enclosure:
As stated
