Subject: Re: Kewaunee enforcement conference

Again thanks for your assistance in this matter. Regarding issues, yesterday we had our pre-meeting with Dryer we believe the licensee may request additional specific information (details) regarding OI's investigation of the FFD and false information issues, present information to justify their investigation results, and question why they received different information than OI did . We will see how it goes. The shows starts at 9:00 AM (CDT).

I'll be available to attend the enforcement conference via video conference on Wednesday, July 16th. Any issues I should know about in advance?
