**Subject:** Charleston to Savannah River

John and Gloria,

I have been actively involved with the process of the movement by motor carrier or the Foreign Research Reactor shipments. I have been involved with the routing from both the after shipment reports required by 49 CFR 397 as well as the planning for shipments utilizing this route. It passes all tests required by the regulations in 49 CFR 397 and has total state routing agency support. USDOT,

FMCSA, has no problem with the route.

Rich Swedberg
