SUBJECT: ACCEPTANCE FOR REVIEW OF BABCOX & WILCOX OWNERS GROUP
(B&WOG) TOPICAL REPORT BAW-1543(NP), REVISION 4, SUPPLEMENT 6,
"SUPPLEMENT TO THE MASTER INTEGRATED REACTOR VESSEL
SURVEILLANCE PROGRAM" (TAC NO. MC9608)

Dear Mr. Gardner:

By letter dated December 20, 2005, B&WOG, now known as PWR Owners Group, submitted for U.S. Nuclear Regulatory Commission (NRC) staff review Topical Report (TR) BAW-1543(NP), Revision 4, Supplement 6, "Supplement to the Master Integrated Reactor Vessel Surveillance Program." The NRC staff has performed an acceptance review of this TR and finds that the material presented is sufficient to begin our comprehensive review. The NRC staff expects to issue its request for additional information by February 12, 2007, and issue its draft safety evaluation by June 12, 2007. The NRC staff estimates that the review will require approximately 100 staff hours including project management time. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between Thomas J. Laubham, PWR Owners Group Project Manager, and the NRC staff on September 22, 2006.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours will be billed accordingly.

Sincerely,

/RA/
