Bob,

From my quick look, slide 11 should also indicate that the decision to eliminate the position was actually made in the latter part of 2002 (I think Dec.). Jeff Teator can fill you in on this aspect but Jeff found a key piece of documentary evidence off a computer that was contemporaneously produced indicating as much.

Ernie

Attached, please find a copy of the EDO/Commissioner Merrifield presentation, planned for March 28 and 29, for your review.

The Powerpoint presentation contains notes along with the slide. Therefore please take a look at our notes to ensure that what we will be saying is factually correct.

Please forward any comments or suggestions to Bob Fretz or Russ Arrighi. Thanks!
