Subject: WESTINGHOUSE IS ASKING FOR AN NRC LICENSE TO EXPORT FUEL TO UKRAINE.

--WESTINGHOUSE IS ASKING FOR AN NRC LICENSE TO EXPORT FUEL TO UKRAINE. In an application filed earlier this month, the company said it wants a license to export 33,000 kilograms U of enriched uranium contained in six lead assemblies and reload fuel for use in South Ukraine-3. Westinghouse said the first export would occur in April 2003. The export would take place under the terms of the U.S.-Ukraine agreement for nuclear cooperation, which entered into force May 28, 1999.
