SUBJECT: Radiological Characterization Survey, Hammond,
 License STC-133

04000341

Dear Ms. Ullrich:

As promised in our letter to you of July 19, 2006 (reference Control No. 138087), the Defense National Stockpile Center (DNSC) herein submits its Radiological Characterization Survey report for the DNSC Depot in Hammond, IN. The report combines results of both radiological scoping and characterization surveys performed by the Oak Ridge Institute of Science and Education under the auspices of the Oak Ridge National Laboratory between September 2005 and June 2006. The data is germane to our request for approval of site specific Derived Concentration Guideline Levels for use at our Hammond Depot.

Sincerely,

MICHAEL J. PECULLAN
 Radiation Safety Officer
