Mr. Michael Gartman, Acting Chief
Division of Waste Management and Environmental Protection
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Dear Mr. Michael Gartman,

We have received a notice from you concerning a project within the Sacramento Fish and Wildlife Office's jurisdictional area. We are pleased to tell you that official species lists are now available on the Internet. For more information, see www.fws.gov/sacramento/es/spp_list.htm. That page includes a link to the species list generator.

We encourage you to obtain an on-line list for your project's action area to assist you in determining whether the project may affect any species listed, or proposed or candidate for listing, under the Endangered Species Act of 1973 or any critical habitat designated under the act.

Action area refers to the area that will be directly or indirectly affected by the project. This will usually be larger than the project footprint. See www.fws.gov/sacramento/es/action_area.htm.

If you have questions about any species on the list or your responsibilities under the Endangered Species Act of 1973, as amended, contact the appropriate geographic branch of our office as shown on the following web page: www.fws.gov/sacramento/es/branches.htm.

If you do not have Internet access, or have any trouble making a list, call Harry Mossman at (916) 414-6674 or email him at harry_mossman@fws.gov.

TAKE PRIDE
