(NOTE: This will be used as the Documents Title in ADAMS)

Summary: LAT received a request for amendment to reflect a change in RSO. The request was signed by the RSO-designate. The request was not on the licensee's letterhead.  
  
I called the Corporate RSO (Stanley Murphy) to verify if the individual is authorized to sign in behalf of management and to remind him of the NRC policy that requires that all correspondence be signed by a representative of the licensee's senior management.  
  
He confirmed that the individual is to be named the RSO and offered to send another letter signed by a manager. I told him that this conversation will be adequate and that all future correspondence must be signed by a manager. He stated that he will remind the branch managers of NRC's policy.
