

16 October 2006

Mr. Wayne Reiber
Manager, Environmental Assessment and Remediation
Cabot Corporation
157 Concord Road
P.O. Box 7001
Billerica, MA 01821-7001

SUBJECT: ACCEPTANCE OF CABOT'S REVISED DECOMMISSIONING PLAN FOR THE
CABOT-READING SITE

Dear Mr. Reiber:

This letter is in response to your August 21, 2006, submission of proposed Revision 4 of the Decommissioning Plan (DP) for the Cabot-Reading, Pennsylvania site.

The U.S. Nuclear Regulatory Commission (NRC) staff has completed an expanded acceptance review of Revision 4 of the DP. The expanded acceptance review is an administrative review designed to identify significant deficiencies in DPs. We have determined that the DP is sufficiently complete to initiate a detailed technical review.

In accordance with the requirements in Subpart L - Informal Hearing Procedures for NRC Adjudications, of 10 CFR Part 2, as amended on January 14, 2004 (69 FR 2182), the NRC will provide an opportunity for an informal hearing (10 CFR Part 2.1206) to any person whose interest may be affected by this proceeding.

This letter will be made available electronically in the NRC Public Document Room or from the Publically Available Records (PARS) component of the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <http://www.nrc.gov/reading-rm/adams.html>.

Please contact me at (301) 415-6721, if you have any questions.

Sincerely,

/RA/

Theodore B. Smith, Project Manager
Division of Waste Management
and Environmental Protection
Office of Federal and State Materials
and Environmental Management Programs

Docket No.: 40-9027
License No.: SMC-1562
