SUBJECT: Addition to the Amendment to NASA Marshall Space Flight Center NRC  
Material License 01-06571-10 for the Use of Depleted Uranium.

NASA Marshall Space Flight Center wishes to add the following sealed source to our  
current amendment application:

AEA Technologies, Model AMM.1001H as described in entry number MA-1059-S-174-  
S (May 2, 2000) of the Sealed Source and Device Registry. The isotope is Am-241 in  
the form of Solid Metal Foil. There will be no more than ten sources with each source  
having a nominal activity not to exceed 1.0 uCi.

The sources will be used for research and development. The Authorized User for these  
sources will be Philip Brown, RSO.

Philip Brown, RSO, at 256-544-5738 is the point of contact should you require further  
information.
