Summary:	<p>This record summarizes multiple communications by e-mail and telephone on the dates listed above.</p> <ol style="list-style-type: none"> 1) Dr. Rundback does not appear to meet the requirements to be named as authorized user for Y-90 Theraspheres. Dr. Rundback is an interventional radiologist who currently is not an AU on this license. Current NRC licensing guidance allows only authorized users who meet the requirements of 35.490 to be considered as AU for Theraspheres. Licensee's initial request committed to AUs who meet the requirements of 35.490. Allan said that apparently a sales representative informed Dr. Rundback that NRC now allows an interventional radiologists to be named as AU. I informed Allan that this is not possible. He said that Dr. Rundback will work on a team that includes an AU radiation oncologist. 2) To update HDR license commitments to switch from monthly to quarterly full calibrations it is necessary to submit procedures required by 10 CFR 35.610 and 35.643. I reviewed in detail what information needs to be provided. Allan said he will submit this within a week. 	
Action Required:	Await response from licensee, then issue amendment. Discuss in cover letter why Dr. Rundback may not be named as AU.
