Docket No.: 03002502
Mail Control No.: 139170

Bob Tokarz, RSO:

Yesterday we received a fax of an NRC form 313a for Craig Marsden.

This provides some of the requested information, but a bit more is still needed.

a) As initially requested, please provide a copy of a diploma or transcript of at least one of Dr. Craig Marsden's graduate degrees in physics, medical physics, or a related field. An official copy is not required.

b) It is necessary to provide specific documentation that Dr. Craig Marsden received training in the topics listed in 10 CFR 35.51(c): hands-on device operation, clinical use, and operation of a treatment plan system for HDR. Please confirm that this training occurred and who provided it. This should include specific vendor or vendor-equivalent training for use of the HDR model at St. Peter's.

c) Dr. David Marsden provided most of the required information from a preceptor and attestor, but a few details are still needed. Please ask Dr. David Marsden to confirm that Dr. Craig Marsden "has completed one year of full-time training in medical physics and an additional year of full-time work experience under my supervision. He has satisfactorily completed the requirements in 10 CFR 35.51(b)(1) and (c) and has achieved a level of competency sufficient to function independently as an authorized medical physicist for HDR."

Please fax this to my attention at 610-337-5269 by October 10.

Thank you for your assistance,

Sandy Gabriel
Senior Health Physicist
Medical Branch
NRC Region I
