ATTENTION OF:

September 6, 2006

Lake Anna Nuclear Early Site, Louisa County

Supplemental Preapplication Information

1. A search of the Virginia Department of Historic Resources Data Sharing System revealed the following:

No known historic properties are located on the property.

The following known architectural resources are located on the property (see attached map and listing)

The following known archaeological resources are located on the property: 2 Cemeteries present on site.

2. A search of the Virginia Department of Conservation and Recreation data revealed the following:

No known populations of federally listed threatened or endangered species are located on the property.

The property is within a known concentration area for the following species:
Small whorled pogonia

3. We suggest the following avoidance, minimization, and compensatory mitigation measures be incorporated into any plans you prepare for the property: All road and driveway crossing should be placed perpendicular to streams.

Please note this information is being provided to you based on the preliminary data you submitted to the Corps relative to project boundaries and project plans. Consequently, these findings and recommendations are subject to change if the project scope changes or new information becomes available and the accuracy of the data. Lastly, the Corps only consulted the federally-listed species in the Virginia Department of Conservation & Recreation's database. You may also want to consult the Virginia Department of Game and Inland Fisheries' database at www.dgif.va.state.us

Northern Virginia Regulatory Section
(Lake Anna)

Mr. Ken Roller
C/o Dominion Nuclear North Anna, LLC
5000 Dominion Blvd.
Glen Allen, VA 23060

Dear Mr. Roller:

This letter is in reference to the wetland delineation completed by Burgess & Niple for the North Anna Nuclear Power Station located in Louisa County, Virginia.

The delineation report as submitted to our office depicting wetlands and streams within the project area and shown on the site plan entitled "North Anna Power Station, Wetland Delineation"; dated January 2006 and revised August 1 2006 is hereby verified as accurate. Our basis for this includes application of the Corps' 1987 Wetland Delineation Manual and the positive indicators of wetland hydrology, hydric soils, and hydrophytic vegetation and the presence of an ordinary high water mark.

Any mechanized landclearing that disturbs the soil surface, such as with a bulldozer and/or root rake, and/or any filling or excavation in the wetlands and streams on this site may require a permit from the Department of the Army and/or the Virginia Department of Environmental Quality prior to such activities occurring.

If you have any questions, please call Regena Bronson at 301.475.2720.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Williams".

Bruce F. Williams
Chief, Northern Virginia Regulatory Section
